### GRAPHIC RECORDING – (CUSTOM ONLY)

Experts estimate that 65 percent of the population are visual learners, responding best to pictures, graphics, maps, and written information. Graphic recording capitalizes on this ability through live visual capture of event keynotes, panels, and training content in engaging, colorful murals or storyboard form, literally drawing on themes and abstract concepts to bring them to life on 60" x 40" boards.

A skilled graphic recorder can capture visuals that cross over the boundaries of culture and language to provide a lasting visual record of your meeting content.

#### Package includes:

- Pre-event consultation to clarify goals and objectives, and to pre-sketch key themes and content points
- Live visual capture of meeting content (up to three [3] sessions per day)
- Follow-up with capture of final images. If needed, we can prepare and ship the completed boards back to your office.
